COMPANY SNAPSHOT

Prior to Sport Cafe, entrepreneur Andrés Turski founded QuickDeli with partner Andrés Rivero. Seeing a lack of fast yet healthy food options for university students across Chile, they used their engineering skills to develop a refrigerated cart from which to sell sandwiches, salads, beverages, and deserts at their school campus. Through their selling points (fresh and healthy food, and fast, reliable service), QuickDeli built a loyal following, and received numerous awards for entrepreneurship.

True serial entrepreneurs, they sold QuickDeli in 2007 and started new ventures. Andrés Turski launched Sport Cafe, a restaurant holding company with 180 employees.
