COMPANY SNAPSHOT

Ernesto and José are helping advertisers target consumers where they shop, play, socialize and exercise. Instead of using billboards or newspaper ads, their company Enox sells spaces for indoor media (such as stickers and coasters) in commercial establishments across Brazil. Founded in 2004 in Curitiba, Paraná state, Enox can offer its clients access to a network of over 5,000 restaurants, stores and gyms. The company, which began as a US\$10,000 investment, now has more than 20 offices across Brazil.
