COMPANY SNAPSHOT

Vicente is considered a pioneer in the Mexican microfinance sector and has found a way to translate his socially minded concerns into a successful business venture. FinComún's products are designed to be accessible: savings accounts have a minimum balance of US\$1, and loans start at US\$25. By offering a full range of financial services to Mexico's marginalized urban populations, FinComún has become one of the largest private microfinance institutions in Mexico City.

FinComún has grown very quickly since selection, and has been the subject of case studies at MIT and Harvard.
